## INSTRUCTIONS FOR SUBMITTING A SCIENTIFIC SYMPOSIUM

### FORMAT

Symposium should:

- Be planned for 90 minutes
- include a panel presentation and provide ample time for discussion
- Be based on a scientific theme, current and new and research for a topic culminating in a conclusion or summary
- Utilize a lecture style learning format

Speakers should come from at least 2 countries, and we encourage gender equality.

### PROGRAMME

There must **not** be more than 3 speakers involved including the chairperson.

It is the responsibility of the chairperson organiser to compile the programme, chair the session, choose speakers and contact the speakers.

The programme should consist of 3 lectures. Please include information of the planned scientific content and at who this symposium is aimed at.

**Please note that scientific content must be presented in the format of not structured abstract of 1 500 characters maximum.**

**Only complete proposals will be considered.**

The programme committee might make changes to the content and the speakers.

### FINANCIAL SUPPORT

Scientific symposium chairperson organizer (if she/he is speaker) and other speakers will receive a free Congress registration
